

RADAR

International regulations state that if you have radar on board your yacht, you must know how to use it. This course will teach you how to get the best out of your radar unit.

Topics covered: -

- General safety precautions in using equipment.
- Basic understanding of radar wave propagation.
- Conditions giving rise to abnormal propagation.
- Set up procedure, functions and correct use of controls.
- Radar set components.
- Target definition and discrimination
- Passive and active Radar reflectors.
- Use of Radar for navigation and collision avoidance.
- Accuracy in range and bearing.

Pre-course knowledge: Basic navigation.

Duration: 1 day

Certificate

On completion of the course you will be given an RYA Radar certificate.

Course enrolment

Student numbers are kept to a maximum of 8 students per course, so early booking is advised.
